PARTS MANUAL

MODELS 3005 & 3008

3005

5 H.P. / 26" RIDING MOWER

MFG. NO. 1690240

8 H.P. / 30" RIDING MOWER

MFG. NO. 1690242

ATTACHMENTS & ACCESSORIES

MFG. NO. 1600236

MFG. NO. 1690180

MFG. NO. 1600408

MFG. NO. 1600333

MFG. NO. 1600238

3008

Attention Dealers:

This manual is one of the new style parts manuals which Simplicity is issuing. We trust you will find that this manual contains more information than previously offered in parts manuals, including important facts which will help you with repair work and parts ordering.

The new loose-leaf format allows for easier updating of specific sections should it be necessary and, in general, makes the manual easier to work with in day to day use.

For quick, accurate reference when making warranty claims, group numbers are now given with each parts section. Also note that serial numbers of units are now listed to locate any difference in parts which may occur in later models. Be aware of these unit serial numbers when ordering parts.

Standard torques appear in a chart at the end of the manual, while important individual torques are given on specific parts drawings. These provide easy reference notes for repair and troubleshooting.

CRITICAL and MAJOR notations point out important facts or instructions which relate to safety or reliability and machine quality. The CRITICAL notation **[C]** pinpoints characteristics which, if not properly followed, can create a safety hazard. The MAJOR notation **[M]** marks characteristics which, if not properly followed, may result in operating failure, shortened product life, or greatly reduced quality of the unit.

We are confident that you will find that these new format parts manuals contain more complete information for your benefit, and that they are much easier to use.
